

### Classic Construction:

Classic cabinets (sides, back, bottom and sub-top/sub-bottom) are constructed using fully doweled 0.75" particle board with double sided thermal fused laminate (TFL) with matching 3mm PVC edge banding.

Drawers are fully doweled, 0.75" matching TFL front w/3mm PVC edge banding, 4" satin nickel pulls and standard full extension side mount steel ball bearing glides.

Doors are 0.75" double sided TFL, matching 3mm PVC edge banding, 4" satin nickel pulls and 6-point adjustable concealed hinges (European hinge).

Shelves are double sided TFL, matching 3mm PVC edge banding on front edge, adjustable shelves have four double-pin shelf clips per shelf to prevent the shelves from sliding out or tipping.

Integrated, 1" caster base with matching 3mm PVC edge banding. 3" heavy duty plate casters, two locking and two non-locking. Casters are installed onsite by others.

### Assembly:

Each unit is factory assembled using glue and dowel construction.

**Premium cabinets** are constructed the same as the Classic **EXCEPT** the Premium cabinet components are **double sided high pressure laminate (HPL)** in place of the double sided TFL.

**Shipping Class:** Base: Density Based Class, Tops: 70  
**NMFC#:** Base: 80440, Tops: 83620-2

### Lotz Armor Edge™ Tops:

Lotz Armor Edge™ top is constructed of 1.125" thick MDF (medium density fiberboard) core. MDF is a superior material for screw holding abilities exceeding 250 lbs., breaking strength and load tests. The back material is phenolic which **prevents moisture penetration** to core material and provides an anti gum surface. The top top material is high pressure laminate that is bonded to the **MDF core** making the total thickness of the top at 1.25". The .25" beveled radius edge is finished using our exclusive Lotz Armor Edge™, a polyurea, which is extremely strong and durable. **This edge will not separate from the MDF core material and makes the edge water tight.** Lotz Armor Edge™ comes black standard. Colors available.

### 3mm Tops:

The core material is 1.125" thick particle board with a phenolic backer sheet and high pressure laminate on top making the total thickness at 1.25". Matching WB Standard 3mm PVC edge banding is applied to all sides, radius corners.

Optional top surface choices include **whiteboard laminate** or **black chemical resistant laminate** and most Wilsonart matte (-60) finish laminates with possible up charges. Other vendors available upon request.

### Butcher Block Tops:

**Hardwood:** 1.75" thick face-glued hardwood strips with 0.125" radius all corners/edges with two coats catalyzed clear lacquer top and sides with one clear coat bottom with eased edges and corners.

### Phenolic Tops:

1" thick black phenolic resin and cellulose fiber composite top with 0.125" radius edges and corners with high resistance to chemicals, humidity and abrasions.

### Standard Features:

.75" fully doweled casebody construction

4 double-pin clips

4" satin nickel pulls

3" heavy duty locking & non-locking plate caster

6-point adjustable hinge

### Optional Features:

Deadbolt lock

Markerboard top (-\_\_MB)  
Black Chem. Rest. top (-09C)
